**Alhambra Home Care want the "BEST" for our Residents**

**Our Mission**

is to provide loving care and personal attention to each individual's particular needs that will result in improvement of your loved one's quality of life.

**Our objective**

is to meet the needs of all residents, including physical, emotional, and social. We will provide a continuity of care and recognize the need for dignity, self-esteem, and above all the desire in all of us to feel loved.

**Facility is privately owned operated** by Raquel Miranda RN, who directly supervises all staff, reviews and updates individual care plans.

### Resident 's Choice

**Alhambra Home Care empowers residents** to take as much control over their lives as they wish, and provides support and training to enable the resident to make their choices and preferences known.

**Choices are offered throughout the day,** as a part of the usual routine, each resident is involved in making choices about his or her own life and activities, as well as making plans for the home such as menu planning or planning activities through residents' council meetings.

**“Freedom of Choice,  
Living Healthy and Longer, and  
Improving the Quality of Life”**
